

1. Genesis, Vision & Market Demographics

Tawwerni was conceived to solve the critical friction point of MENA online learning: low completion and lack of accountability. It reimagines skill building as a high-velocity, 5-minute daily micro-routine.

Regional Addressable Market

- Over 100M Arab-speaking youths and professionals seeking high-income tech skills.
- Regional EdTech growing at 15%+ CAGR.
- Unprecedented appetite across Egypt, KSA, and UAE for practical AI workflows.

Primary User Personas

- 1. Career Shifters:** Professionals transitioning into lucrative digital roles.
- 2. Global Freelancers:** Independent contractors aiming for high-ticket USD clients.
- 3. University Grads:** Seeking verifiable, credentialed proof of real skills.

Unmatched Competitive Advantage:

Unlike legacy video course catalogs with 40-hour marathons, Tawwerni engages users with bite-sized daily cards, live quizzes, and instant verifiable certificates that prove real mastery.

2. Curriculum Architecture & The 10 Master Pillars

Every one of the 100 tracks follows our proven 28-day habit framework (5 minutes/day), divided into structured modules and verified with interactive quizzes.

1. AI & Automation (10 Tracks):

Prompt Engineering, Generative Media, Agentic Workflows, LLM fine-tuning, AI for Business.

2. Web & Modern Dev (10 Tracks):

Next.js, React 19, TypeScript, Python Automation, API Design, Full-Stack Architecture.

3. Data Analytics & BI (10 Tracks):

SQL Mastery, Business Intelligence, Data Pipelines, Tableau/PowerBI, Predictive Stats.

4. Global Freelancing (10 Tracks):

Upwork Dominance, High-Ticket Deals, Contract Negotiations, Global Payment Rails.

5. Digital Growth & Ads (10 Tracks):

Meta & Google Ads, Funnel Architecture, SEO Engineering, Conversion Copywriting.

6. UI/UX & Design Systems (10 Tracks):

Figma Mastery, User Psychology, Mobile App Architecture, Design Token Systems.

7. Business & Startups (10 Tracks):

Bootstrapping, Unit Economics, SaaS Metrics, Sales Closing, Enterprise Pitching.

8. Cybersecurity & Ops (10 Tracks):

Threat Modeling, Defense in Depth, Privacy Engineering, Incident Response.

9. Executive Leadership (10 Tracks):

High-Stakes Negotiation, Strategic Communication, Team Management, Crisis Leadership.

10. Peak Productivity (10 Tracks):

Deep Work Protocols, Habit Loops, Energy Management, Mental Models for Execution.

✦ Built-In Video Screen Recording Capability:

The lesson model contains a native nullable `videoUrl` property, allowing the buyer to embed optional video walkthroughs into any card on demand.

3. Daily Operations, Payments & Admin Control

Engineered for lean, frictionless execution. A single operator can manage enrollments, reconciliation, and payouts in under 15 minutes per day.

1

Diagnostic Quiz & Funnel Lead Capture:

Prospects complete a gamified diagnostic quiz, receive their AI readiness score, and get personalized course recommendations with Day 1 free.

2

Frictionless Payment Reconciliation:

Customers pay via InstaPay or Vodafone Cash. The transaction appears in the Admin Dashboard with one-click approval triggering automated welcome emails.

3

Automated Affiliate Payout Settlements:

Affiliates earn 75 EGP per referral. Upon reaching 150 EGP, payout requests can be cleared via mobile wallet in seconds with immutable audit logs.

Built-In Admin Capabilities:

- User & subscription oversight.
- Payment receipt matching and payout clearances.
- Content Hub CMS & article editor.
- Comprehensive immutable admin audit logging.

4. 100-Day Post-Acquisition Scale Roadmap

Actionable playbook outlining how the acquirer can recoup their purchase price and scale ARR within the first 90 days.

Phase 1: Days 1–30

Global Payment Activation:

- Integrate Stripe / Tap for instant KSA/UAE credit card checkout.
- Launch Meta/TikTok ads targeting the AI diagnostic quiz (target CAC < \$2).

Phase 2: Days 31–60

B2B Enterprise Team Seats:

- Package the 100 tracks as corporate upskilling licenses for SMEs (\$1k–\$3k/team).
- Onboard 20 key tech creators to the high-commission referral program.

Phase 3: Days 61–100

Mobile App & Retention Engine:

- Wrap Next.js via Capacitor for iOS & Android app stores.
- Launch monthly community challenges to guarantee 60%+ year-two renewal rates.

Estimated Year 1 Potential For The Acquirer:

Target Subscribers:

2,500 – 5,000

Target Annual Run-Rate:

\$75,000 – \$150,000

Projected Acquirer ROI:

5x – 10x In Year 1
